Attachment and Trauma Therapy Resources | Crenshaw Inc.

April 03, 2018 at 10:55 AM. No, you're probably not going to cure your PTSD by hanging out with a horse or a dog. Get your trauma healing done with an efficient, proven-effective method like EMDR, PC, and some others. That being said, sometimes interacting with an animal can help, primarily with attachment and self-regulation, both during treatment and afterwards.

Trauma Institute :: How Animals Can Support Trauma Healing

It's a natural combination. Integrating an understanding of mammalian stress responses, psychophysiology, trauma, and attachment in the presence of another relational species whose nervous systems resonate with the principles taught in Somatic Experiencing®, EQUUSOMA™ is the intersection of the biological and the psychological, of intuition and science, where transformation occurs ...

EQUUSOMA — Equine-Facilitated Trauma Therapy
The Foundation For Human Enrichment, d.b.a. Somatic Experiencing® Trauma Institute, is a 501(c)(3) nonprofit dedicated to resolving trauma worldwide by providing state-of-the-art professional training and public education in Somatic Experiencing® (SE™).
Chaddock’s Developmental Trauma and Attachment Program (DTAP) brings hope and healing to children and youth who have experienced severe trauma and struggle with attachment-related difficulties.

Trauma bonds keep many women in abusive relationships. Studies of the traumatic bonding theory - the notion that strong emotional attachments are formed by intermittent abuse - are reported here. Treatment therapies and the repitition compulsion are discussed here in depth.

* Through this mutually attuned interaction, the infant learns to attain balance in his body, emotions, and states of mind. * The comfort, pleasure, and mutuality of the attuned interaction creates a sense of safety within the infant and inspires interpersonal connection to others.

Born for Love - In this book, Dr. Bruce D. Perry and journalist Maia Szalavitz argue that empathy, the ability to recognize and share the feelings of others, is a crucial human quality that underlies much more than love, friendship and parenting.

Adult "attachment" in the form of a deep psychotherapy relationship can lead to significant healing, years after a failed attachment during infancy.

Skills training for people who have a trauma-related dissociative disorder, and therapists. Topics include understanding dissociation and PTSD, using inner reflection, emotion regulation, coping with triggers and traumatic memories, resolving sleep problems, coping with relational difficulties, and the difficulties of daily life.

The Somatic Experiencing® method is a body-oriented approach to the healing of trauma and other stress disorders. It is the life’s work of Dr. Peter A. Levine, resulting from his multidisciplinary study of stress physiology, psychology, ethology, biology, neuroscience, indigenous healing practices, and medical biophysics, together with over 45 years of successful clinical application.
