The collection of systems represented in Sourcebook of Models for Biomedical Research is an effort to reflect the diversity and utility of models that are used in biomedicine. That utility is based on the consideration that observations made in particular organisms will provide insight into the workings of other, more complex, systems.

### **SOURCEBOOK OF MODELS FOR BIOMEDICAL RESEARCH**

A heuristic model is a model used to discover how a process works rather than being a descriptive model of the process.... The definition of a heuristic model is in fact rather simple but it is the way in which such models are constructed that gives rise to most difficulty in classification.
