Tanker operation : Matters That Require Attention At Sea Maintenance of Vent Line System, Cautions about Sparks from Funnel, Avoidance of Thunder Storms, Ballasting and Cargo Oil Transfer Operations Tanker operation: Inert gas system The oxygen content of the Inert Gas supplied to cargo tanks should be 5% or less.

Oil Tanker operation : Procedure and basic guidance

Tank Vessel Operations. Tankers are loaded near the midship point by shore pumps, or gravity if storage tanks are elevated, through hoses or "hard-arms" (hard pipe structures with swivel connections) connected to the ship's piping system. Tankers commonly have pipes on deck and running down to the ship bottom.

Purpose of Operator Training (613.1-1) • The purpose of tank operator training is to protect human health and the environment. • Facilities with USTs that are subject to federal and state regulation must designate at least one Class A, Class B, and Class C Operator for those tanks.

Tank IQ: Training Guide for Class A and B UST Operators

The domestic and international rules governing the qualifications for personnel serving on tank

vessels have changed in recent years. To address those new requirements, the fourth edition of Tanker Operations incorporates new material by Mark Huber and other contributors, providing an updated textbook for maritime schools and individuals pursuing a tankerman endorsement.

Tanker Operations: A Handbook for the Ship's Officer - G ...

A tanker is a ship designed to transport or store liquids or gases in bulk. Major types of tankship include the oil tanker, the chemical tanker, and gas carrier. Tankers also carry commodities such as vegetable oils, molasses and wine. In the United States Navy and Military Sealift Command, a tanker used to refuel other ships is called an oiler but many other navies use the terms tanker and replenishment tanker.

Tanker (ship) - Wikipedia

This publication is essential reading for all those involved in the design, operation, management, and maintenance of petroleum road tanker fleets, and all those involved in the manufacture of vehicles, tanks, service equipment and electronic equipment used on petroleum road tankers.
